NEW QUALITY SAFETY FOOTWEAR

We are HOODS, the new quality safety footwear brand in Europe.

When working in extreme conditions, workers need footwear they can depend on. We produce and sell professional multi-purpose footwear that is suitable for all climates and on all kinds of surfaces.

Our ergonomically designed footwear provides extra levels of protection and is extremely comfortable. So, all focus can be on the task ahead. The HOODS Professional Footwear range is the best choice in terms of quality, materials, durability, and style. Whatever happens, HOODS Professional Footwear takes your workers SERIOUS.

**SERIOUS
SAFETY
SHOES**

Designed in EU
Made in UAE

PROVEN IN EXTREME CONDITIONS

We believe in proud workers in all disciplines: from army and security to industry. Proud workers deserve SERIOUS working gear they can be proud of.

HOODS is a brand of the National Factory for Safety and Security (NFSSP) was established in the United Arab Emirates (UAE) in 2012 and is a manufacturer of high technology army and security & safety footwear. Our products are tested (and approved) in extreme conditions, offered by our landscapes, weather conditions, and featured industries.

SERIOUS PROTECTION FOR EVERY SITUATION

Innovation is key. That is why HOODS Professional Footwear is developed and designed in collaboration with European knowledge partners.

The machinery in the factory is ultra-modern, robot-controlled, and fully automated to ensure that every pair of shoes that is made is perfect in every way. That's more than 1 million pairs of perfectly made shoes every year!

A wide-angle photograph of a desert landscape featuring large, smooth sand dunes. In the upper third of the frame, a caravan consisting of three camels and two people in traditional white clothing is walking across the crest of a dune. The sky is a pale, clear blue, and the overall lighting is soft, suggesting early morning or late afternoon. The foreground shows the undulating curves of the sand dunes with some sparse, dry vegetation.

They don't only look good. All our footwear is ergonomic, comfortable, as well as highly durable — the perfect combination of excellent lightweight footwear with superb comfort. For the new range, we've worked in close collaboration with honored European designers. Thanks to their unrivaled knowledge of footwear engineering, materials management, and product development, we've been able to develop our unique HOODS Footwear concept.

SERIOUS FOOTWEAR FOR TOUGH WORK

Our shared expertise has resulted in a unique product line that is made for all working environments, tested (and approved) in extreme conditions. All HOODS Footwear is designed and engineered by international partners and made in our state-of-the-art factory in Abu Dhabi, UAE.

Our commitment to quality is supported by CE certification-Intertek lab, and ISO 20345:2011, ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007.

WE OFFER SERIOUS SHOES FOR THE FOLLOWING INDUSTRIES

- ✓ Agriculture
- ✓ Automotive
- ✓ Construction

SERIOUS COLLECTION

HOODS Safety Footwear with a good price and quality ratio. The best quality shoes for various target groups. These shoes are not only very safe and comfortable, but they are also modern and trendy. HOODS Safety Footwear is suitable for wearing day in and day out, and they also have the latest and required certificates and meet all regulations.

We are continually working to improve our collection, with new materials, new designs, and especially ergonomically improving our shoes. This guarantees you the latest developments and innovations. Also, check our website regularly; our collection is still growing. For us, this is SERIOUS, and we are proud of it!

EUROPEAN STANDARDS

S1P

EN ISO 20345:2011
Safety shoes with a steel or composit toecap and a stainless steel sole or woven zero penetration insole, more suited to dry working situations.

S1

COLLECTION FEATURES

We have created a new brand with great innovation and added value. Each reference will provide the maximum quality, comfort, and safety you require to do your job under the best safety conditions.

LEATHERTEX MEMBRANE

This membrane provides you the highest breathability for your shoes. This material is water repellent and therefore required for activities where humid conditions are present in your daily job.

LEIGHTWEIGHT MATERIALS

Fiberglass and Kevlar materials offering the best safety and protective conditions, also lightweight materials for long working hours to feel consistently comfortable.

AIR SYSTEM TECHNOLOGY

Our new developments in Air System Technology offers extreme comfort even if you work under intense temperatures.

S1P

S1

S2

S3

S1P, S1, S2, S3 COMPLIANT

All our references meet European Standards. HOODS is a SERIOUS brand for Safety Footwear, and we work with high-quality materials to provide the best safety shoes.

DESIGNED IN EU

Our designs come from a partnership of European agencies to check the market trend to develop products according to customer needs.

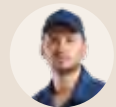

PROVEN IN EXTREME CONDITIONS OF UAE

HOODS is manufactured in UAE and tested under the most extreme weather and physical conditions you can get in a desert region. If HOODS works in UAE, for sure, it will work everywhere.
